### INVITATION LETTER by WAKO IF President Mr. Roy Baker

Dear Presidents, Competitors and Guests,

it is my great honor to invite you to the 2026 WAKO Junior, Cadet and inclusive World Kickboxing Championships in Jesolo, Italy.

Sport has a unique capacity to unite people across borders, languages and cultures. As Nelson Mandela wisely said, "Sport has the power to change the world." This Championship is more than a contest of skill and will; it is a shared effort to build harmony, mutual respect and understanding through fair play and athletic excellence.

This year we celebrate unprecedented growth in WAKO. We are proud to host delegations from more than 100 nations and to welcome at least 3,000 participants — athletes, coaches and officials — together with extensive coverage across Italy and beyond. Your presence makes this the most spectacular event of the year and a powerful demonstration of how sport can bring the world together.

To the athletes: you are the heart of this Championship. Compete with courage, integrity and respect. To the coaches: thank you for preparing your teams with discipline and care. To the referees and officials: your impartiality and professionalism protect the fairness of every match and uphold the reputation of our sport. To every national federation and volunteer: your dedication fuels WAKO's continued development and global reach.

We are committed to hosting a safe, transparent and well-organized event. Integrity, athlete welfare and fair competition will guide every decision we make over these days. Every nation represented here is a valued partner in WAKO's ongoing journey; together we will continue to grow the sport, expand opportunities and inspire new generations.

We look forward to thrilling competition, memorable sportsmanship and the friendships that will form in Jesolo. Thank you for joining us — let us make this Championship a celebration of excellence and unity.

Respectfully yours.

INVITATION LETTER by FEDERKOMBAT President Mr. Riccardo Bergamini

Dear friends of WAKO,

With great pride and a strong sense of responsibility, Italy is ready to welcome the WAKO family for the WAKO Youth World Championships 2026. Thanks to the experience and professionalism of the organizing committee, brilliantly managed by Nicola Traina, the event will be conducted at the highest level, ensuring a standard of excellence befitting a World Championships.

I warmly invite all of you to participate in this prestigious international event, which represents far more than a sporting competition. The Championships will combine the excitement of athletic competition with cultural discovery, offering young athletes a unique and unforgettable experience where sport meets Italian hospitality and heritage.

These Youth World Championships are founded on the values that guide our sport: friendship, to build lasting relationships between athletes and nations; fair play, to compete with honor, respect, and integrity; unity, to bring young athletes together from around the world under a single banner; and excellence, to encourage everyone to give their best. Every match is an opportunity for growth: in WAKO, there are no losers, only chances to learn and improve.

As a global family, WAKO celebrates its unity and recognizes excellence while respecting the journey of each athlete. Champions inspire us all, but every participant contributes to the success and growth of our sport, making this event an occasion for sharing, competition, and international friendship.

We look forward to welcoming you to Jesolo for the WAKO Youth World Championships 2026 and sharing an extraordinary experience together, one that will take its rightful place in WAKO history.

This is Jesolo. A city with modern services, comforts, organized roads, impeccable safety, a high quality of life, many accommodation facilities and leisure opportunities. It is a city able to meet the needs of today while already planning for the future. Guests will feel truly at home here; they will be calmed by the beautiful beach, the Blue Flag awarded crystal clear seas, countless attractions and entertainment venues. Jesolo's golden beach is well managed, and the bathing establishments are always attentive to the service of their guests, even four-legged ones. It stretches between the shaded Pineta, a true green pearl for the city, whose path is marked by works of art depicted on the walls of buildings and homes and is the most modern and best equipped establishment in the Adriatic. Jesolo's beach is ideal for

sports such as beach volley, windsurf, sailing, and open-air fitness, as well as for children to play on the playgrounds or just to relax under the sun and take a walk. The beach is very safe for swimmers and offers the opportunity for a complete relaxed holiday. And with more than two hundred events throughout the year, Jesolo is both a winter and summer tourist destination. The beach has also been awarded the Green Flag by the Italian Paediatricians, meaning it is an ideal resort for children. In addition to the high quality of future accommodation facilities and its ever-welcoming spirit, Jesolo, the beauty of its sea and its beach, will let you enjoy yourself and make your stay unforgettable.

Jesolo, a modern city. Organized and redesigned by the internationally acclaimed Japanese architect Kenzo Tange, new realizations are distributed along the city.

The area features modern facilities tailored to the needs of its guests and provides ample parking.

Fifteen kilometres of golden beach and twelve kilometres of Jesolo's pedestrian walkways, the longest in Europe run along the coast. The numerous squares are the meeting place for enjoying music and events in a pleasant atmosphere.

Jesolo is also very close to the cities of art and history, starting with **Venice**. And in fact, it is the lagoon, a **UNESCO World Heritage Site**, with its northern appendix that creeps into the territory of Jesolo between the river and the countryside. The

large fishing areas in the north lagoon watch as a silent place where you can also go mountain biking, thanks to an itinerary structured specifically to find out the relationships between the many waterways that run through the area: those of the river (the Sile, once Piave Vecchia) and those of the lagoon. The inland and its nature can be discovered thanks to more than 150 kilometres of routes as beautiful as the waterways through which waterway tourism has been developed.

**DISCOVER JESOLO AND THE HINTERLAND**

**1. Jesolo: An Archistar Hunt**

Kenzo Tange, Carlos Ferrater, Goncalo Byrne, Richard Meier, Zaha Hadid. These are some of the most famous of the architects who have redesigned Jesolo over recent years. The idea behind the project is bringing this Veneto city closer, in both concept and substance, to a modern beach city building upwards while at the same time in perfect symbiosis and harmony with low density accommodation. Renovating and relaunching the coastal skyline with elegant and sophisticated buildings representing the symbolic and emblematic heart of the resort's new avant-garde and cosmopolitan face. A stroll around the city in a search for its 'brand name' buildings by one of these architecture stars is a good day out in the event that the sun decides to hide from you. Here are a few hints: Carlo Ferrater designed the Piazza Mazzini tower, Richard Meier the Via Levantina buildings, Goncalo Byrne the Merville tower on Viale Oriente...

**2. Jesolo: Le Antiche Mura**

The finds from the archaeological site of Ancient Walls, which is located in Jesolo country at the end of the street, are kept in the Tourist Info Office of Jesolo in Piazza Brescia. The archaeological site of great historical importance - Art for our area, after the various excavations have occurred in 900 returned to the community finds that testify to the religious importance of the place covered. They came up to us, in fact various findings that are attributable to the primitive early Christian church (V sec. DC), which was superimposed a classroom of early medieval cult (VI-VII centuries. DC), and finally the most monumental Cathedral of Saint Mary of the Assumption 'XI century. The exhibition features various display panels with mosaics torn during the excavations and multiple pieces of marble of great value. More info: [www.jesolohistory.it](http://www.jesolohistory.it)

**3. Jesolo: Glimpses of Beauty between the lagoon and the Piave**

A stone's throw from the most popular beach, there is an area of great natural interest: the Laguna del Mort. Created in 1936 when the River Piave broke its banks which, due to exceptional swelling, changed the last stretch of its bed, the Laguna del Mort, which straddles Jesolo and Eracela, is an unspoilt area which hosts an incredible variety of plants and animals in its shallow waters and sandy beds. This is not the only gift offered by the Piave, the "Sacred River of the Homeland" on whose banks the First World War was fought. In fact, the banks offer incredibly beautiful glimpses of landscapes and nature. On the right bank of the Piave, around Fossalta di Piave, there is a stone which marks the place where Ernest Hemingway was injured by an Austrian grenade during the Great War. This dramatic experience became the basis for one of his greatest novels, "A farewell to Arms". Also set in Veneto "Across the River and Into the Trees".

**4. Jesolo's other face: nature**

The lagoon, with its northern appendix, worms its way into the Jesolo area between the river and the agricultural land. Here, the large fish farms keep watching over the silence of an area all to be explored, where luxuriant vegetation still protects a habitat that is intact and unspoilt, where the charm and natural beauty of every tiny detail underline the wild spirit of Jesolo's lagoon. Fishing, agriculture and tourism inhabit Jesolo's hinterland with deep respect, preserving its balance and exalting the extraordinary sensations that it transmits and the genuine and natural products it offers. Jesolo's lagoon has ancient charm, but also very current intensity and empathy. With its little islands, floodplains, halophilic plants and pools of water, from dawn to dusk, it wakes up and feeds visitors' most hidden emotions, the sensations that the hustle and bustle of daily life unfortunately suppresses.

**5. Jesolo: A stroll in the green...**

Green, like the colour of the many public parks, eight in total, spread throughout the city and always available and well-equipped. Green, like its farmland vegetation and riverbanks, whose river mouths, between the Piave and the Sile, surround this coastline that stretches almost 15 km. Green, like the stunning inland nature, which you can visit, experience and discover thanks to the almost 150 km of cycle paths. Green, like the wonderful pine forest, which, for the last few years, has been enriched by an "artistic" trail, thanks to the "Art Walls" initiative, with artists unleashing their creativity on the walls of homes and shops. So, Jesolo has lush green nature at its heart, surrounded as it is by two rivers, just like a precious pearl, with the sea on one side and the lagoon on the other.

## 12. Treviso and the Villas of Veneto

The March of Treviso area offers some of the most beautiful landscapes of Italy with its neat plain, the rolling hills and ancient villages. Here you can find some of the most famous villas in Veneto. In Maser, Villa Barbaro is one of the masterpieces of Andrea Palladio and it is situated among the UNESCO World Heritage Site. Inside, the visit continues with frescoes by Paolo Veronese. A little further north, in Cison di Valmarino, the Castello Da Camino Brandolini d’Adda, open on booking, is the result of the projects of Jacopo Sansovino. Going down into the plains, the 17th century portico of Villa Manin is one of the most charming places of Montebelluna, whilst Villa Mocenigo Garzoni Martini, in Castello di Godego, visitable in the winter months by appointment, is an 18th century work of the architect Francesco Maria Preti. ### **13. The botanical garden in Padua**

The botanical garden in Padua was founded in 1545 and is the world's oldest university botanical garden. This natural and architectural wonder houses nearly 7,000 plant species, a unique variety of specimens recognized by UNESCO as a World Heritage Site in 1997. Most of the world's known species are kept here and educational workshops aimed at schools and groups of students and adults take place here, divided into 10 thematic routes. Anyone who chooses to spend an hour or two in the Botanical Garden - particularly suited for family visits - should not miss out on seeing the historic trees. Among them is the *Chamaerops humilis* palm tree from 1585, an oriental banana tree from 1686 and a magnolia from 1796, the oldest in Europe. There are also medicinal plant and carnivorous plant sectors and a corner where entire ecosystems are rebuilt, such as the tropical greenhouse or the Mediterranean scrub. They are all worth a visit. ### **14. Islands of the Lagoon: Charm and Art Nouveau atmosphere in Lido di Venezia**

The Venice Lido (Lido di Venezia) is one of the most well-known islands in the Venetian Lagoon, a fully-fledged watershed between the city and the open sea. With its low and sandy coast, the Lido stretches for about 11 kilometres and attracts tourists with its slow pace and delightful architecture. Seamlessly connected to the centre of Venice by traditional steamboats, the Lido is the only island in the Lagoon that can be explored by road. Most visitors, however, prefer to explore the island by bicycle. This way you can easily move between the Lido and Malamocco, a colourful fishing village, and Alberoni, a port mouth, characterised by high sand dunes, which is nestled in a haven protected by the WWF. For those visiting the Lido, definitely not to be missed are the Abbey of St. Nicholas, which dates back to the 10th century and is the resting place of a part of the remains of the patron saint of sailors, the impressive Liberty architecture of the early 20th century hotels overlooking the Marconi waterfront, and the nearby reserve of Cà Roman, a paradise for birdwatchers. Departures: Punta Sabbioni More info: [www.veneto.eu](http://www.veneto.eu)

### **15. Island of the Lagoon: San Lazzaro degli Armeni**

San Lazzaro degli Armeni is a haven of peace and spirituality, about twenty minutes by steamboat from St Mark's Square. Today, this small island in the Lagoon is inhabited by a monastery of Armenian monks of the Mechitarist Order, who settled there in 1717. Since the 18th century, the island has been home to one of the largest Armenian communities in Italy, safeguarding the impressive cultural heritage that has been collected and produced over the course of the decades. Today the monastery is open every day for guided tours. Every afternoon at 3.25 p.m., when the steamboat from St Mark's docks, these tours of around two hours let visitors discover the secrets of the island and its discreet inhabitants. Among the marvels that are not to be missed are the paintings by Tiepolo, a snow-white sculpture by Canova, a unique Egyptian mummy, and the colourful rose garden where the monks collect the flower petals which they use to produce the fragrant *vartanush*, a jam made from roses. More info: [www.veneto.eu](http://www.veneto.eu)

### **16. Medieval atmospheres in Cittadella**

A panoramic walk on the only city walls of Europe with a Medieval walkway, elliptical in shape completely accessible. This is the *Camminamento di Ronda* after a conservative restoration, lasting twenty years, with its walkway 15 meters above and all around the walls of Cittadella, in the province of Padua. The ancient guard walkway served to defend the city from the high in case of enemy attacks. The recent restoration has allowed the safety of the ancient walkway, allowing visitors to admire the city from original and privileged points of view, a unique experience of "Walking into history". The walk is almost two kilometres long and at the beginning of the path you can visit the re-enactment rooms and Medieval staging inside the Casa del Capitano.
